

CHESAPEAKE LIGHT CRAFT

THE BEST BOATS YOU CAN BUILD

Thanks for signing up for a boatbuilding class with Chesapeake Light Craft. We're looking forward to building boats with you!

Any general questions about classes should be directed to info@clcboats.com, or call us at **410 267 0137**.

Tuition Details

- Tuition fee will be paid in full when you register.
- Additional charge per person for family members or a helper.
- Payment for the boat kit is due 30 days before the class begins.
- MD tax applies to boat kits purchased for Annapolis classes.

If You Need to Cancel

Students who cancel 30 days or less before the class begins will not receive refunds.

If We Need to Cancel

In the event of an emergency or a lack of registrations, Chesapeake Light Craft reserves the right to cancel classes and refund all tuition and boat kit money. Because of this policy, we strongly urge you to buy refundable airline tickets or flight insurance. Chesapeake Light Craft will not be responsible for any loss on nonrefundable airline tickets.

Class Hours

Classes start on Monday at 8 am. Building a boat in a week requires careful choreography! Please be on time. We'll take a full hour each day for lunch. Class will usually run until 5 or 6 pm, though some nights will be later. Classes end at noon on Saturday.

Accommodations

You'll find a list of suggested accommodations on the web page for your class.

Transporting Your Assembled Boat

You'll need to get your boat home at the end of the class! Please be ready by Saturday to either cartop or trailer your boat home. CLC offers roof racks and trailers at excellent discounts; please let us know in advance what you need: 410 267 0137. It's possible to ship your boat home, though logistically complex---call us for more information.

Outfitting Your Finished Boat

Students in our classes will receive discounts on tools, supplies, and gear you might need to finish and outfit your boat.

Tools

We have enough equipment to loan to students who don't have or can't bring any tools, but you'll enjoy your experience more with a few basic tools of your own. Specific lists may be found on the web page for your class. We'd prefer you bring at least a cordless drill, basic hand tools, and as many clamps as you can manage.
